

DEVASHRI MANICKAM

Engineer | Junior MERN stack developer

CAREER OBJECTIVES

To leverage my skills in MERN Stack development to design and build efficient full-stack applications, while continuously enhancing my technical expertise

EDUCATION

Currently pursuing a Bachelor of Engineering (BE.) in Computer Science and Engineering

- Sri Ramakrishna college of engineering, Perambalur, Tamil Nadu.
- CGPA: 8.0/10.0
- 2022-2026

Higher Secondary (Class 12)

- Little flower matriculation Hr.sec school, Chettikilam, Perambalur, Tamil Nadu
- Percentage :71.68%
- 2021-2022

Secondary School Leaving Certificate (SSLC - Class 10)

- Little flower matriculation Hr.sec school, Chettikilam, Perambalur, Tamil Nadu
- Percentage :81.68%
- 2019-2020

Proficient in

- Full stack web development
- Python (Basics)
- Adaptability
- Project Development
- Innovation & Creativity
- Problem-Solving

Achievements

- District-level Basketball Player; represented [Perambalur] in official tournaments.
- Participated in various PowerPoint presentations, which enhanced my confidence and public speaking skills.
- Participated in quiz competitions to enhance general knowledge and problem-solving skills
- Participated in various inter college competitions

Internship

- **Artificial Intelligence and Machine Learning Intern**
Edify techno solution, Chennai (10 DAYS)
 - Worked on [IRIS Dataset, e.g., model building, data analysis].
 - Gained hands-on experience in AI concepts and machine learning algorithms.
- **Full Stack Web Development Intern**
Edify techno solution, Chennai (20 DAYS)
 - Developed and maintained web applications using front-end and back-end technologies.
 - Strengthened skills in [mention key tools like HTML, CSS, JS, React, Node.js, etc.].
- **Attended a one-day workshop on Mail flow Application System using Python.**

work on with projects

- **Leader – Drug Abuse Awareness Application**
 - Led the development of a mobile/web application to help users understand and overcome drug abuse.
 - Coordinated team tasks and ensured timely project completion.
- **Leader – Personal Finance Management App (Nan Mudhalvan)**
 - Headed the project to develop a finance management app for budgeting and tracking expenses.
 - Implemented core functionalities and guided team members on design and coding.
- **Team Member – Drone-Based Disaster Management Project**
 - Contributed to designing and implementing a drone system for disaster monitoring and relief operations.
 - Assisted in automation, network connections, and AI integration for efficient performance.
